Measures that cannot be auto-validated require a documentation review prior to submission. Please work with your Implementation Analyst to provide sample documentation.

To meet the Improvement Activities category, you must have 40 points total. Improvement activities won't be weighted, and CMS changed the number of activities clinicians are required to attest to completing.
Traditional MIPS Reporting:
· Clinicians, groups, and virtual groups with the small practice, rural, non-patient facing, or health professional shortage area special status must attest to 1 activity (40 points).
· All other clinicians, groups, and virtual groups must attest to 2 activities (20 points each).
